CCR Update v4.07.2

In order to complete a minimum registration, enter a valid value for all of the required data fields, then press the "Validate/Save Data" button located at the bottom of each page to save your data. (You must do this for each Required Information page in order to save the data.) Once you have completed all of the Required Information pages with 0 errors, the Registration Status box (located at the bottom left of your screen) will say "CCR Update Accepted." At this time you will have completed your registration and may quit or add additional information.

If you quit without completing all required fields with 0 errors, you can return at any time and finish your registration by using your confirmation number. (The registration will not process until all errors have been corrected, and all mandatory fields have been entered.)

Upon successful registration of your Trading Partner Profile (TPP) into CCR, validation will take approximately 24-48 hours to complete. If approved, you will receive, via e-mail or US Postal Service, one letter containing your Trading Partner Profile (TPP) with your CAGE Code and another containing your Trading Partner Identification Number (TPIN). At that time your temporary Confirmation Number is no longer valid. Renew or perform future updates and changes by using your DUNS number and TPIN.

The maintenance and accuracy of your TPP is your responsibility. To maintain an Active status in CCR and to ensure continued payments on existing contracts, you must renew your registration annually.
